

Dropsa Blue

Multi-Purpose Grease

Dropsa Blue is a Lithium soap E.P grease for use in heavily loaded anti-friction and plain bearing applications. Dropsa Blue is the ideal grease for many situations making it an invaluable addition to your stores or toolbox.

It is designed to run in Dropsa grease lubrication systems and has proven to reduce blockages caused by other greases considerably. The grease has been designed maintaining a high penetration and high separation pressure which are key to reducing blockages in lubrication systems.

BENEFITS:

- Good mechanical stability.
- Excellent water and corrosion resistance.
- Good load carrying properties.
- Versatile.
- Compatible with most other soap based greases.
